1 Introduction

- 1.1 The Scheme brings together individuals who are seeking support and guidance on their career development from more experienced professionals who are willing to share their knowledge and experiences.
- 1.2 Women in Planning is an independent network with the aim of promoting a diverse, equitable and inclusive planning industry. The Network was established to empower women working in the sector and support their career development, we consider that the Women in Planning Mentoring Scheme is one of the ways in which we fulfil this.
- 1.3 The key benefit to mentees is:
 - opportunity to gain objective guidance and support from professionals outside of your organisation which will aide your career growth;
 - learn from the experience of others and develop your own self-reflection and decision-making skills;
 - opportunity to focus on the skills/knowledge you would like to develop.
- 1.4 The key benefits to mentors are:
 - the opportunity to act as a role model and inspire future generations;
 - develop leadership and management skills;
 - expand connections across the Women in Planning network.
- 1.5 The Scheme is open to all our members working in the planning and the built environment sector. Students right through to those working in the boardroom are all welcome. We will review each application and do our best to find a suitable match for you to fulfil your objectives. Places are limited so get your applications in fast.
